

## Technical Requirement for Environmental Products

### The Certificable Technical Requirement for Environmental Labelling Products

## Hg-Cd-Pb Free Rechargeable Battery

HJBZ 7—1994

---

### 1 Scope

This technical requirement specifies definition, basic requirements and technical contents for environmental labelling products of Hg-Cd-Pb Free Rechargeable Battery.

This technical requirement shall apply to various Hg-Cd-Pb Free Rechargeable Battery.

### 2 Definition

“Outer packing”, in this technical requirement, means a variety of paper packing boxes when the rechargeable batteries leave the factory.

### 3 Basic requirements

3.1 Quality of products shall conform with requirement of relevant product quality standard.

3.2 Pollutant emission of the company should be obliged to conform with pollutant emission standards nationally or locally.

### 4 Technical contents

4.1 Mercury, cadmium, lead and their compounds as well as other hazardous substance should not be contained in raw materials for production.

4.2 Outer packing should adopt oil-printed or recyclable paper boxes/cases, and should not be treated by film unless degradable film is used.

---
